

Valuing Diversity & Promoting Equality Policy

Policy Statement

Neston Preschool is committed to ensuring that our service is fully inclusive in meeting the needs of all children. We recognise that children and their families come from diverse backgrounds. All families have needs and values that arise from their social and economic, ethnic and cultural or religious backgrounds. Children grow up in diverse family structures that include two parent and one parent families. Some children have two parents of the same sex. Some children have close links with extended families of grandparents, aunts, uncles and cousins, while others may be more removed from close kin, or may live with other relatives or foster carers. Some children have needs that arise from disability or impairment, or may have parents that are affected by disability or impairment.

Some children come from families who experience social exclusion or severe hardship. Some have to face discrimination and prejudice because of their ethnicity, the languages they speak, their religions or belief background, their gender or their impairment.

We understand that these factors affect the well being of children and can impact on their learning and attainment. Our setting is committed to anti-discriminatory practice to promote equality of opportunity and valuing diversity for all children and families.

We aim to:

- a) Provide a secure environment in which all our children can flourish and in which all contributions are valued;
- b) Include and value the contribution of all families to our understanding of equality and diversity;
- c) Provide positive non-stereotyping information about gender roles, diverse ethnic and cultural groups and disabled people;
- d) Improve our knowledge and understanding of issues of anti-discriminatory practice, promoting equality and valuing diversity;
- e) Challenge and eliminate discriminatory actions;

- f) Make inclusion a thread that runs through all of the activities of the setting;
- g) Foster good relations between all communities.

4. Curriculum

The curriculum offered in the setting encourages children to develop positive attitudes about themselves as well as to people who are different from themselves. It encourages children to empathise with others and to begin to develop the skills of critical thinking.

Our environment is as accessible as possible for all visitors and service users. If access to the setting is found to treat disabled children or adults less favourably then we make reasonable adjustments to accommodate the needs of disabled children and adults.

We do this by:
